

The Scientific Programme of *Botrytis* 2010 will be based on thematic sessions, which are aimed to provide a balanced selection of topics on basic and applied research. Prominent researchers would be invited to host session presentations, introduce and conclude the respective session they are hosting. Introductory lectures are intended to provide a general overview of the topic, attracting both specialists in that particular field as well as people not familiar with all the concepts and latest developments. Every session would include a number of short oral presentations and some selected and more extensive plenary presentations.

## ORAL AND POSTER PRESENTATIONS

Presentation will be either oral or by posters. No parallel sessions will be organised. At least one author of each paper must register and pay their registration fee in order for their paper to be included in the Symposium Programme.

### Oral presentations

Oral presentations will be restricted to 10 minutes and 5 minutes discussion per speaker will be allowed.

### Poster presentations

Posters should be prepared on A0-size (83 x 118 cm) posters in portrait layout. Poster boards and necessary adhesive material will be provided.

## SYMPOSIUM BOOK OF ABSTRACTS

A book of abstracts of all presentations will be handed out to all registered participants at the beginning of the meeting.

## LANGUAGE

The official language of the meeting is ENGLISH. English will be used in the abstracts, in the poster and oral presentations and in the discussions.
